v.  
Carol Williams,  
Defendants

Case no. 217 cv 40

Hon. GJQ, USDCJ

Hon. MV, USMJ

Motion for the extension of and or enlargement of time to file  
objection to the report and recommendation extended to Oct 4, 2019  
ecf no. 94

Pursuant to the Fed. R. Civ. P., Rule 6, the plaintiff move the court for the extension of and or enlargement of time of 75 days after Oct 4, 2019 to file objection to the RR ecf no. 93. In support of this motion the plaintiff state the following:

1. The plaintiff remains denied and untreated and uncured suffering the side effects from the neuroleptic controlled substance schedule 1-5 antipsychotic and opioid drugs that were forcibly injected into the plaintiff body and blood stream against the plaintiff's will and without a signed consent to treatment signed by the plaintiff. The MROC determined that the plaintiff suffer pain and acknowledge chronic problem has psychosis, nos personality, and cognitive disorder and the court must appoint the plaintiff counsel and access to a competent psychiatrist who will conduct and appropriate examination and assist in the evaluation, presentation, and preparation of the report and recommendation, oppose and move for summary judgement. McWilliam v. Dunn, 137 S.Ct. 1790 (2017)  
Case no. 214 cv 12789. doc # 142 pg 1d 979. see Case no. 114 cv 707. RR on 7/12/17  
ecf. no 65. case no. 114 cv 734. ecf no 88 pg 1d 721; 729

2. The plaintiff move the court for an order for 75 days after Oct 4, 2019 to file objections to the RR eCF no 93, at the construction and mailing of pleading for an extension/enlargement of time the plaintiff was notified by the amf prison official to contact home and the plaintiff learned and given notice that a sibling has deceased and the plaintiff in pain, mourning, and mental distress coping with the pain and trauma lost of family member.

3. The court resist and restrict the original reasonable motion for 90 days and the claims are complex, and do not overlap factually with prior lawsuit but is a ongoing conspiracy to help further the goals and sexual and physical assault of CCF prison official and KCF official. A link is forged to all Lawsuits, Thibault, case no 214 cv 108, eCF no 176, eCF no 168, eCF no 154, trial 000186 - 000200. In fact the court invented and created false claims in the eCF no, 176 etc, that cause pain and conceal the sexual and physical assault in the KCF administrative segregation 6 man cell after being framed and or set up with an 8 inch knife. Thibault Case no 214 cv 108. Trial 000186 - 000200 and the court have knowledge that the plaintiff remains in administrative segregation with a serious mental and chemical impairment untreated and the plaintiff made a reasonable request for 90 days but was reduced with a threatening deadline of Oct 4, 2019. The plaintiff has chronic joint disease and tendonitis of femur and wrist and due to timing, death, emotional distress, pain, suffering, and continuing sexually and physically abuse the plaintiff will require enlargement and or extension of time, health records, and appointment of counsel to file objections to the RR, eCF no 93-94.

For the above reason the plaintiff <sup>relief</sup> pray the court grant the extension of time or enlargement of time the plaintiff is determined mentally ill and in ad seg. coping with pain and death and pray to have shown just cause and not be discriminate and harassed, intimidated, and annoyed by the court.   
 Respectfully,  
 9/19/19
